# Akuvox SmartPlus Video Intercom and Property Access

Setting a new standard with unmatched value & features for multi–residential environments.

Solution Introduction

Akuvox SmartPlus is a reliable and all-inclusive smart video intercom and property access solution specifically created for multifamily buildings. It delivers a wide range of highly secure and practical features in addition to door communication and access, such as real-time monitoring, alarm notifications, and permission group control.

Feature Comparison

Akuvox provides a broader range of features and greater value compared to ButterflyMX. Take a look at the comparison table below to better understand the distinctions between the two and make an informed decision that suits your needs.

Feature	Akuvox SmartPlus	ButterflyMX

Message Notification	✅	✅
1080P Full HD Video Quality	✅	❌
Vandal Protection Guarantee	✅	❌
Two-factor Authentication	✅	❌
Low-light Sensitivity Camera with Starlight & HDR Technology	✅	❌

Value Comparison

While Akuvox SmartPlus and ButterflyMX share similarities, ButterflyMX offers limited benefits to multifamily communities. It provides basic video intercom features for residents and aids property managers with delivery and package management. However, the costs of its hardware and annual software licensing outweigh its value to a property.

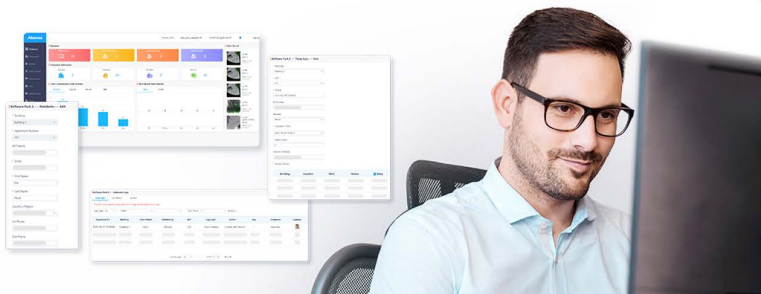

The Value for Installers

Akuvox

- Ensure consistent revenue generation through monthly fee markup
- Facilitate batch management across multiple communities
- Offer a mobile installer app for convenient management
- Support remote device upgrades

ButterflyMX

- Installer does not receive recurring revenue

The Value for Property Managers

Akuvox

- Ensure vandal protection guarantee
- Enable batch management of resident accounts
- Provide flexible configuration for access groups
- Offer property manager app for mobile management
- Generate temporary PIN codes for secure delivery or visitor access
- Facilitate automatic or manual opening of all doors during emergencies
- Provide comprehensive access event reporting and photo logs
- Deliver community announcements to residents

ButterflyMX

- Manage resident accounts exclusively
- Facilitate access management
- Allow remote management of virtual keys and delivery PINs
- Deliver community announcements to residents
